

I Believe that Air 1 will be a great loss if you change the way we listen to FM Radio. Air 1 is a great station and should not be lossed because someone wants to make a few more bucks. Air 1 is nationally known and works hard to make sure that people all over the world are affected in a positive way. It will also be a huge loss to the city of Wichita, and the State of Kansas. We need Air 1, do not change the way things are being done unless it is broken. If it is broken fix it, don't reconstruct the way things are being done and hurt the people who support and cherish this radio station.
